## (PERMIT TERMS CONTINUED)

This temporary permit is issued subject to the water management plan and water management plan addendum among Barrick Goldstrike Mines, Inc.; Newmont Gold Company; and T S Ranch Joint Venture dated May 1, 1989.

Any water obtained as a result of the dewatering operation of Barrick Goldstrike Mines, Inc. or Newmont Gold Company shall be used first by the permittee for mining, milling, heap leaching, drilling, road watering and other related mining and milling uses hereinafter referred to as mining and milling uses within the described place of use and prior to any use of the water authorized under Permits 49960, 50567, 50688, 50939, 51074, 51750, 51963, 52354, 52795, 52796, 52797, 52999, 53000, 54335, 54336, 54337, 54338, 55127, 55128, 55795-T, 55796-T, 56757-T, 56758-T and 56759-T.

The total amount of water under the above mentioned permits shall not exceed 2,000 million gallons annually.

The State Engineer retains the right to regulate the pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights.

A monthly report shall be submitted to the State Engineer within 10 days from the end of the month which shall include the amount pumped from each well and the amount used for each mining and milling purpose.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on December 29, 1992 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

A map setting forth the exact location of each well drilled under this permit and a well log for each well drilled shall be submitted to the State Engineer on or before January 15, 1992.
